

## Lifecore Biomedical Announces Chief Financial Officer Transition

August 29, 2024

### Experienced CDMO Industry Financial Executive Ryan Lake Appointed CFO

CHASKA, Minn., Aug. 29, 2024 (GLOBE NEWSWIRE) -- Lifecore Biomedical, Inc. (NASDAQ: [LECB](#)) ("Lifecore" or the "Company"), a fully integrated contract development and manufacturing organization ("CDMO"), today announced that John Morberg will be stepping down from his position as chief financial officer to pursue other professional opportunities and spend time with his family, effective September 2, 2024. In addition, the Company is pleased to announce that Ryan Lake, an accomplished CDMO financial executive, will succeed Mr. Morberg as CFO beginning September 3, 2024.

"On behalf of the board of directors, along with the entire Lifecore team, I would like to express our gratitude to John for his years of service as the Company's chief financial officer. During his tenure, he has proven to be an invaluable member of leadership making significant contributions to the Company's overall success, while also skillfully navigating the organization through numerous complex transactions as it transitioned into a dedicated CDMO," said Paul Josephs, president and chief executive officer of Lifecore. "We wish John the best in all his future endeavors."

Mr. Josephs continued, "We are excited to bring Ryan on board at this important time for Lifecore as we work to refine and execute a comprehensive strategy to marry our unique strengths with the significant opportunities in the CDMO space in order to achieve sustained growth. Ryan's impressive experience uniquely positions him for this role. Not only has he served as a successful public company CFO within the CDMO space, but he has also experienced firsthand the complexities of creating a dedicated CDMO from a larger organization with multiple business arms. These parallels with the Lifecore story equip him with valuable insight and experience that will serve the Company well on our exciting path forward."

During his career, Mr. Lake has been credited with leading and advising corporations through mergers, acquisitions, spin-offs, recapitalizations, integrations, equity, debt, and stock market transactions. He has raised over \$700 million in capital and has participated in M&A transactions worth over \$700 million in value. Mr. Lake has significant experience within the CDMO industry, having most recently served as the CFO of Societal CDMO, Inc., a company dedicated to solving complex formulation and manufacturing challenges primarily in small molecule therapeutic development, which was publicly traded on the Nasdaq Stock Market until its recent acquisition by CoreRx.

"Our commitment to transparency and value creation has never been stronger," said Mr. Josephs. "With Ryan joining us, we gain a leader whose exceptional skills in investor relations and financial strategy will be instrumental in steering Lifecore toward its next chapter of growth. Ryan's proven ability to communicate effectively with stakeholders and manage complex financial operations will enhance our commitment to delivering long-term value."

As CFO of Societal CDMO (formerly Recro Pharma, Inc.), Mr. Lake played an instrumental role in strategically transitioning the company into a dedicated CDMO through the spin-off of the organization's therapeutic pipeline development arm. Following this transaction, he was intimately involved in a comprehensive corporate rebranding and the creation and execution of a strategic plan to grow the company, adding critical new capabilities to its service offerings, and in turn expanding its customer base. Mr. Lake also led efforts to strengthen the company's financial position, including leveraging non-core assets, and built visibility with key financial community stakeholders. These efforts helped contribute to the successful acquisition of Societal CDMO by CoreRx, another CDMO, in April 2024.

Prior to his time with Societal, Mr. Lake served as CFO and vice president of finance of Aspire Bariatrics, Inc., a privately held, commercial-stage, medical device company. From 2012 to 2015, he held executive management and senior finance positions, including director of the natural materials division, controller and senior director of finance, at DSM Biomedical (successor to Kensey Nash after its acquisition in 2012), a division of Royal DSM (listed on Euronext Amsterdam), a global science-based company active in health, nutrition and materials. From 2002 to 2012, Mr. Lake served in various senior financial positions, most notably interim CFO and senior director of finance, with Kensey Nash Corporation, a Nasdaq-listed, medical device company. Earlier in his career, Mr. Lake worked at Deloitte & Touche, LLP.
